

Planning Your Company's Resources Using Modern Technology

By Business IT Analyst, Solutions Consultant and Trainer Nebal Anaim

JCCI is pleased to invite you to attend the seminar:

Planning Your Company's Resources Using Modern Technology

Jeddah Chamber of Commerce and Industry would like to invite you to attend the seminar "Planning Your Company's Resources Using Modern Technology" in association with Business IT Analyst, consultant and trainer Nebal Anaim. During the seminar you will learn how ERP Systems can help executive managers of organizations from different industries and sectors find effective & efficient solutions to improve the way their organizations are run and assist them in achieving their corporate objectives. Business Solutions such as Enterprise Resources Planning Systems, abbreviated as ERP (MRPII), represent computer software technologies and management information systems (MIS) that link all departments in one automated system (some of them web-based).

The audience of this event is decision-makers who are considering starting selecting, implementing, using, or even changing an existing troublesome ERP system.

AGENDA

Throughout the presentation many enlightening topics will be covered including:

What's an ERP System (A Business Solution or an IT System or both)?

Other MIS Systems: Business Intelligence (BI), Enterprise Asset Management (EAM), Content & Doc Management, etc.

Benefits of ERP Systems including samples of business functions.

Examples of ERP Systems and which organizations use them.

The right process for ERP selection.

The importance of team effort, goal-setting, planning and step-by-step execution

Success factors and how to apply them.

Failure excuses and how to avoid them.

ERP Software Licensing & Pricing Schemes

Out of all ERP Modules why's the HRM software unique in the Gulf Region?

In addition to other related topics
